An Excerpt from Genealogical Information that Pertains to This Generation

The John Peach, Jr. Family of Marblehead

In "The Two Peaches of Marblehead", NEHGR (New England Historical and Genealogical Register), Vol. 54, July 1900, pp 276 - 279, by the Rev. Robert Westly Peach of Camden, New Jersey, a correction is made to earlier genealogies re the separate identities of John Peach, Sr., and John Peach, Jr. This is corroborated by the Marblehead Vital Records (see Note , below), in which several depositions are made by both men, indicating they were of similar ages, the former having been born about 1604, and the latter having been born probably about 1613 - 14. The NEHGR article states that the men were probably first cousins and that John Peach, Jr., was born between 26 April and 22 July 1613. TGMB ("The Great Migration Begins", by Robert Charles Anderson) suggests that the men may have been brothers. The wife of John Peach, Jr., is identified as "Alice", surname unknown, who was born about 1614. "Peach's Point at Marblehead is named for John Peach, Sr (NEHGR).
